## Town Council Holds Real Busy Session

This is the official record of the proceedings of Council of the Town of Wainwright at its regular meeting held on the 1st day of August, A.D. 1944, in the council chamber of the Town of Wainwright.

The members of Council present at this meeting were Mayor Middlemass and Councillors Leggett, Coleman, Stafford, Cork, Tory and Robinson.

The recorded proceedings of the Council at their regular meeting of July 4th, 1944, were read, and on motion of Councillor Cork, were confirmed as written.

On motion of Councillor Cork, that communication from the Calgary Power Company Limited, advising of the lowering of the domestic energy rate to .01 per kilowatt after the minimum of 20 kilowatts hours has been consumed, be received and filed.

The monthly report of Town Constable Donaldson received for the month of July and on motion of Councillor Cork that this be received and filed with the records of this meeting.

On motion of Councillor Tory, that the Secretary advise Jackson and McDonald, that in the case of Mr. Paul Dudziak, the Town accepts no responsibility.

On motion of Councillor Tory, that the Tender of Messrs. Bortoroff and Clark, for construction of sidewalk between 6th and 8th Avenue be accepted by Council and that the Secretary be instructed to draw up a suitable contract covering same. Mayor Middlemass dissenting.

On motion of Councillor Stafford that the letters received from Major Geymonat and Captain Crum be held until further information be received.

On motion of Councillor Stafford, that the amount of \$30.00 be charged for rental of Mayor's office which is being used by the Returning Officer for the coming Provincial Election.

A communication received from Mr. R. H. Cautley, Surveyor, relative to maps of the Town of Wainwright and on motion of Councillor Stafford that the Secretary be authorized to procure ten prints of same at the price of \$1.00 per print quoted.

On motion of Councillor Stafford that the letter from Purvis and Logan, Barristers of Edmonton, be acknowledged and that they be advised that there is no property within the Town of Wainwright as described in their letter.

On motion of Councillor Robinson, that the communication received from the Old Age Pensions Board in connection with Ephraim F. Mills be filed for future reference.

On motion of Councillor Robinson, that letter from the Secretary-Treasurer of Wainwright School District, No. 1658, requesting a further payment of \$2000.00 on 1944 requisition, be received and that the Mayor and Secretary-Treasurer be authorized and instructed to issue a cheque in that amount.

On motion of Councillor Robinson, that the Secretary advise the University Hospital at Edmonton, that the Town refuse liability for the account of Mrs. Lilly McMurray as the husband Mr. J. McMurray is not indigent on account of part time employment.

On motion of Councillor Stafford that the application of Mr. J. H. Patton, to purchase Lot 13 in Block 25, Plan 6445-V, for the sum of \$25.00 be accepted by Council pending the passing of the necessary by-law.

On motion of Councillor Stafford that the application of Mrs. A. E. Dahl of Wainwright, to purchase Lots 4 and 5 in Block 27, Plan 6445-V, for the sum of \$80.00, be accepted by Council, pending the passing of the necessary by-law.

An application received from Mr. Fred Lowe of Wainwright, to purchase Lot 5 in Block 17, Plan 6445-V, for the sum of \$40.00 and on motion of Councillor Stafford that this be accepted by Council pending the passing of the necessary by-law.

On motion of Councillor Robinson, that the Report of the Finance Committee be accepted as submitted and that the Mayor and Secretary-Treasurer be authorized and

instructed to issue cheques to pay the individual accounts in the total amount of \$4247.10.

The Monthly Statement for the month ending July 31st, 1944, submitted to Council and on motion of Councillor Robinson that this be accepted as submitted and ordered incorporated in the minutes of this meeting.

A report received from the Medical Health Officer, Dr. H. C. Wallace, and after a general discussion of same, it was moved by Councillor Cork, that letter and report of the Medical Health Officer, be received and recommendation contained therein be complied with, while the matter of milk licensing and extra scavenging facilities receive further consideration.

On motion of Councillor Stafford that the Secretary be instructed to advise the Midwest Amusement Company that Council is adverse to allowing further entertainment of this nature to visit the Town during the present season.

On motion of Councillor Leggett, that Councillor Robinson be appointed Deputy Mayor for the period ending September 30th, 1944.

On motion of Councillor Stafford that the application of Mr. Harold Marsden of Wainwright, to purchase Lots 4 and 5 in Block 4, Plan 6445-V, for the sum of \$200.00, be not accepted by Council.

On motion of Councillor Stafford that assent be given to the introduction of a by-law concerning the sale of Lot 3 in Block 4, Plan 6445-V, to Mrs. C. Briault of Wainwright for the sum of \$252.00.

On motion of Councillor Coleman that by-law No. 382, receive its first reading.

By-Law No. 382 was then read for the first time.

On motion of Councillor Leggett, that By-Law No. 382, be read for the second time.

By-Law No. 382 then received second reading.

On motion of Councillor Cork that by unanimous consent, By-Law Number 382, receive third and final reading and that it be assigned its title as in the original motion and that the Mayor and Secretary-Treasurer be authorized and instructed to affix their signatures thereto together with the Corporate Seal of the Town of Wainwright.

By-Law No. 382 received its third and final reading.

On motion of Councillor Stafford, that assent be given to the introduction of a by-law concerning the sale of Lots 1, 2 and 3 in Block 47, Plan 945-2, to Mrs. Minnie McLaughlin of Wainwright, for the sum of \$200.00.

On motion of Councillor Coleman, that By-Law No. 383, receive its first reading.

By-Law No. 383 was then read for the first time.

On motion of Councillor Leggett that By-Law No. 383, receive second reading.

By-Law No. 383, received its second reading.

On motion of Councillor Cork, that By-Law No. 383, by unanimous consent, receive its third and final reading and that it be assigned its title as in the original motion and that the Mayor and Secretary-Treasurer be authorized and instructed to affix their signatures thereto together with the Corporate Seal of the Town of Wainwright.

By-Law No. 383, then received third and final reading.

On motion of Councillor Tory, that assent be given to the introduction of a by-law concerning the

## Family Allowance Plan To Aid Rural People

A survey shows that farm families will benefit to a large extent from the family allowance plan. The average payment per child is about \$6.25 a month and the cheques will be issued from Ottawa to heads of families. The family allowance plan was proposed by C. P. McTague, national chairman of the Progressive Conservative party, when he was chairman of the National War Labor Board. He called it a social measure designed to aid those whose status required such assistance.

But John Bracken, National Progressive Conservative Leader, is opposed to the plan which he calls a "political bribe." Instead, he proposed higher wages for lower paid industrial workers and smaller income taxes on low-range earnings.

The government has so far maintained the ceiling on all wages, because to increase lower-range factory pay would bring on tremendous pressure for higher rates for those receiving higher salaries.

This would increase costs to farmers and other consumers. Instead it is increasing purchasing power and improving the standard of living by the family allowance program. Brooke Claxton, M.P., parliamentary assistant to Prime Minister King, calls the plan "the most daring single social and economic measure ever put forward in a democracy to increase the consuming and purchasing power of the whole community."

### BUDGET ELIMINATES COMPULSORY SAVINGS PLAN

Another budget feature is elimination of the compulsory savings plan. This will give relief to many taxpayers in the low and moderate income groups. Few men making big salaries will benefit because their voluntary savings in insurance etc., are as a rule greater than the savings tax amount.

Most high-salaried men have been paying no savings tax because of large allowances for voluntary savings and will therefore not gain by the budget change.

One of the most important budget statements was that of the Finance Minister that in discussions with other countries Canada has "pressed vigorously for unshackling of world trade." World tariff reductions will not only keep farm production costs down but will help to maintain prices for agricultural products by opening up big export markets for Canadian produce.

## Important Report Of Medical Health Officer

To the Citizens of Wainwright:

Owing to the large number of soldiers' families, who are making temporary homes in Wainwright, the housing situation is critical. To meet this situation buildings of all types have been erected, remodeled or hauled in from the country and offered for rent. In many cases, little or no provision has been made to comply with sanitary regulations.

To comply with these regulations a building used as a dwelling, should be clean, weather proof and have adequate water supply available. Approved toilet accommodation must be provided and this toilet should be at least twenty feet from the dwelling. Proper provision must be made for the disposal of house refuse. Combustible material should be burnt, incombustible and excess refuse should be kept in fly proof containers to be collected by the scavenger.

It is the responsibility of the landlord to see that these sanitary regulations are complied with and the duty of every citizen whether owner or renter, to see that the premises and adjoining lane are kept in a sanitary condition. During the summer months, many of the lanes, with their piles of rotting kitchen refuse, are breeding places for flies and a menace to the whole community.

Keep your premises in a sanitary condition and prevent the spread of disease.

H. C. WALLACE M.D.  
Medical Health Officer.

Servicemen and servicewomen on short leave should obtain short leave ration cards before leaving camp.

## Car Deaths Due Carbon Monoxide

Recent deaths from carbon monoxide have caused the Alberta Motor Association to issue fresh warnings to motorists to be on their guard.

In some cases, the deaths occurred as a result of driving cars with defective equipment, enabling the poisonous fumes to overcome the car occupants. A report from the east told of a man and wife meeting death from this cause.

Each year, the toll of death from carbon monoxide could be greatly reduced by exercising particular care. The necessity of keeping a window open when starting up the car, of having the garage doors open to allow the entry of fresh air when the car engine is being warmed up, are fundamental in taking proper precautions.

There is need of warning young people of carbon monoxide dangers. Some accidents have been ascribed to lack of information concerning the dead effects of the poisonous fumes.

With the approach of the fall season, it is necessary to be more alert than at any time in the year.

Keep the car in proper operating condition, see that it is fully and efficiently checked at regular intervals and a long step will have been taken to ward off carbon monoxide.

## Tighten Rules Used Car Sales

Edmonton—Dealers and private sellers of used passenger cars are urged to contact nearby offices of the Wartime Prices and Trade Board to obtain full information governing sales, and proper forms to fill out and file with the Board.

Local offices of the Prices Board in Alberta are located in Edmonton, Calgary, Lethbridge, Medicine Hat, Red Deer and Grande Prairie. Forms must be filed with the Board within four days of the transaction.

Salient features of the amended Board regulations applied to sales of used passenger cars require price tagging of all used cars held by dealers, and a detailed report of each sale. Price tags must state the make, model, model year, serial number, accessories (including spare tire and tube), and the proposed selling price of the car.

Selling prices of used cars remain the same as under the old order. A reduction from the maximum price must be made on the car's condition at the time of sale, and trade-in allowance must be reasonable and just.

Any individual advertising a used car for sale must state full particulars including name, address, a full description of the car and the proposed selling price. A private individual selling a used car may not insist on a trade in.

Any person selling a used car must fill out a statement in triplicate. Copies will be retained by the buyer, the seller, and the third copy filed with the Board.

### WEDDING BELLS OLSON—DEWAR

A quiet little wedding took place on Tuesday morning at St. Andrew's (Pres.) church, when Miss Allie Dewar became the bride of Mr. Harry Olson. Following the ceremony the happy couple left for a motor trip to Jasper Park and other western points.

## Shower For Allie Dewar

A delightful afternoon was spent at the home of Mrs. R. Deyell on Wednesday afternoon last, when about thirty guests attended a miscellaneous shower for Miss Allie Dewar, who is a bride-elect of this month.

Miss Ruth Ruste was co-hostess with Mrs. Deyell. After a few contests conducted by Miss Ruste, Mrs. A. Hamilton and Mrs. G. Valleau served a delightful lunch. Then a decorated tub, filled with gifts was brought in and presented to Miss Dewar. She spoke a few well chosen words of thanks, then all sang, "For She's A Jolly Good Fellow."

## Bank of Montreal Crop Report No. 7

Crops in the Prairie Provinces continue to make rapid progress with practically all grains headed and commencing to fill.

Conditions generally are favourable excepting in the southern, east-central and Peace River districts of Alberta and the southwestern and west-central districts of Saskatchewan, where moisture has been inadequate. In Manitoba the moisture supply is, on the whole, adequate to see the crops through to maturity, but in Alberta and Saskatchewan further precipitation is required soon in some districts to maintain present prospects. Damage from pests and hail has been slight.

In Alberta crop prospects vary from good in the northern and west-central areas to fair to poor in the southern, east-central and Peace River districts. In the latter districts further deterioration is occurring owing to moisture deficiency. Wheat is practically all headed. Production of coarse grains will be lower than last year on a reduced acreage and less favourable growing conditions.

Crop conditions in Saskatchewan are generally favourable but further rains are required in some areas to maintain present promising prospects. Progress is rapid and apart from southwestern and west-central districts, where dry areas have developed, and yields will be poor, stands are thick and grains are heading well. Weeds are troublesome in some areas. Damage from pests and hail is small.

Manitoba prospects continue promising, with sufficient moisture in most districts to see crops through to maturity. Practically all grains are headed and are filling well. Stands are heavy and while there has been some lodging, it is not serious to date.

## Tenants Given New Protection

Ottawa—Tenants of shared accommodation - which includes apartments, flats, rooms or parts of houses, can be sure they will not have to move before May 1, next year, if they are not now under notice to vacate.

Under new regulation of the War-time Prices and Trade Board tenants of shared accommodation now will have the same protection extended to occupants of houses, flats and apartments.

This measure of the Board is designed to foil a tendency on the part of some landlords to evict their present tenants in order to secure a higher rental from new occupants.

Tenants who do not pay their rent, or who break their agreements, are not given the protection of the order, and can be put out by order of the Provincial Courts as in peace time. More-over the Board has provided special safeguards through its Courts of Rental Appeals, to permit dispossession of tenants whose personal conduct is obnoxious to other occupants of the same building.

## Died As Result Of Road Work Accident

Mr. Reuben Patterson, of Irma, was fatally injured when he fell from a road machine on which he was working on Thursday last.

He was rushed to Wainwright hospital, and later removed to the University hospital in Edmonton. Despite all medical care however he passed away there on Sunday last.

The remains were brought back to Irma for interment.

The deceased is a cousin of Mr. F. W. Watts, of Wainwright.

The gross farm value of eggs and poultry products in 1943 amounted to approximately 167 million dollars, or 36 million dollars more than the 1942 gross value.

Stocks of dry white beans, yellow-eye beans and dry whole or split peas in the hands of processors and wholesalers have been frozen. Retailers may dispose of their shelf stocks.

## Land Settlement For Returned Men

In the all important question of rehabilitation for men returned from active service overseas, the section of it dealing with land settlement may be regarded as one of the most, if not quite the most, important.

In a discussion of the Veterans' Land Act this week with Mr. H. Allam, District Superintendent of the Soldier Settlement of Canada and The Veterans' Land Act in Edmonton, it was learned that the purchase of lands for returned men's rehabilitation was now under way.

Land so acquired, Mr. Allam stated, must possess first-class soil and must be in suitable districts. The purchases may refer to improved farms, to land under cultivation without buildings or to virgin land, which was regarded favourably as a result of soil surveys made, and was accessible to markets. The land thus secured by the Dominion Government would then be reserved for settlement by returned men after demobilization.

Emphasis was laid on the fact that ex-service men may make selections from such parcels of lands or, on the other hand, if they so desired, a choice made by themselves elsewhere would be secured for them, if such choice was suitable upon appraisal.

With a view to the whole scheme retaining a complete impartiality and absence of discrimination as one of its objectives, arrangements are being made so that choice locations of land will be available on an equal basis to all, that is to say the men returning last as much as to the earlier arrivals.

It was pointed out by Mr. Allam that a father wishing to have purchased for his son on active service overseas a land site, that he thought would be favourable, would be in order. The purchase could be made and the son's name associated with that particular parcel. This was, however, no compulsion for the son on his arrival home to take it. If the site he wanted should be elsewhere the adjustment could be made.

The Government of Alberta issued a statement recently that it was prepared to grant to returned servicemen, for the purpose of land rehabilitation, agricultural leases on the following terms:—

(a) A half section of selected Crown Lands for each man, for which there would be no rent or taxes for the first three years;

(b) An overall annual rental of one eighth of the crop, if the yield exceeded five bushels per acre, for the next seven years;

(c) Free title to the land would then be given to the veteran for the half section.

This arrangement placed the Alberta Government in the position of being the only Government in Canada ready and willing to give clear titles to parcels of selected

## Road Contracts Are Being Completed

Steady progress is being made on road projects in different parts of the province, according to information which the Alberta Motor Association has received from the public works department.

Bad weather conditions have slowed up work in some sections. A new base and surfacing is being laid on 27 miles of the Calgary-Edmonton highway between Calgary and Crossfield. This will be completed as soon as possible, after which similar work will be done on the main highway from Edmonton to Millet, though there is some doubt as to how much of this northern project can be done now owing to the advanced season.

Another of the main projects is rebuilding of the highway between Killam and Galahad, a distance of 25 miles.

A crew also is at work extending the highway from High Prairie to Valleyview, a distance of 20 miles, completing a link started last year.

During the fall there will be some grading and graveling of the main Peace River highway in the vicinity of Faust.

Crown Lands, each a half section in size, to returned men under the conditions as shown.

At a later date, an Order-in-Council gave to the Alberta Government the following authority:—To withdraw all lands within the Peace River Land Agency where intensive soil classification is being performed, except for disposition of grazing, hay and timber permits. An important clause in relationship to this was covered by the question of intensive soil surveys which would lead to a selection of only those lands for rehabilitation purposes which would be considered suitable for settlement.

The Alberta Government has expressed its willingness to turn over to the Dominion Government all the available Provincial Crown Lands in the above mentioned Peace River area for purposes of land rehabilitation for returned servicemen.

By an amendment to the Provincial Lands Act at the 1944 Alberta Session, the Alberta Government is authorized to sell to the Dominion Government all available lands in the province for the same purpose, proceeds of sales to be paid into the School Fund, which would happen in any case if the school lands were sold in the ordinary way by auction.

## Will Register Children For Allowances

OTTAWA—Without opposition or formal vote the Commons last week gave third and final reading to the family allowance bill. It now goes to the Senate for consideration.

The members spent most of the day discussing the measure clause by clause in committee of the whole. It provides for payment of allowances on account of every child in Canada under the age of 16 and is to come into effect July 1, 1945.

In the meantime, machinery for administration will be set up. A local office will be opened in each province and a registration of children eligible for the allowances will be started.

Production of birth certificates for all children for whose benefit allowances are claimed will be required eventually.

It may not be possible to have more than 3,000,000 birth certificates by the time the allowances start, however, and some leeway will likely be needed. The local administrative offices will probably be opened about the beginning of 1945.

### OVERSEAS

Ray Mackness is a name that should be on the corner of Canadian radio. He stepped over the broadcasting threshold at 17 and has doubled his age in the service of the listening public. He joined the CBC in 1938 but, like over a hundred of its other members, has been on active service since early in the war. He is attached to the RCAF overseas.

Production of linseed oil cake and oil cake meal in Canada increased about 70 per cent between 1939 and 1942, while domestic consumption in the same period more than doubled.

## BREAD IS NOT ENOUGH

Farmers of Canada have good cause to feel satisfied with their war effort thus far. Many have bravely wished Godspeed to sons who have dropped their chores on the farm for the bigger chore of fighting on foreign soil. Most have speeded up their work at home to produce a record-breaking output of farm produce to meet the needs of war.

At first glance that seems enough to ask of any Canadian citizen. But it isn't. While a large majority of farmers has been buying Victory Bonds to the very limit of their resources, there are indications that an appreciable number have not bought all they could and that a sprinkling of citizens in the rural areas have yet to buy their first Victory Bond. Fast rising savings deposits in certain rural areas and reports from the Victory Loan Field Organization seem to substantiate this statement.

What this minority of farmers has overlooked is the fact that Canada's sons in uniform cannot fight on bread alone. They need iron rations too—in abundance. And these iron rations, the bombs and shells and bullets, are produced from the proceeds of Victory Loan sales.

Some one has said that one of the reasons why a number of Canadian farmers has seemed to prefer to keep their money in the bank, or at home, arises from a wrong impression about the negotiability of a bond. As a matter of fact, the farmer who has all his money invested in Victory Bonds is just as able to meet an emergency as his fellow farmer who holds on to the cash. The Victory Bond owner can borrow on his bonds at the bank in five minutes, or if forced by circumstances to sell his bonds at the bank, he can do so in about the same time as it would take him to make a withdrawal from his savings account.

By-Law Number 385 received second reading.

On motion of Councillor Leggett, that assent be given to the introduction of a By-Law concerning the sale of Lot 13 in Block 25, Plan 6445-V, to John H. Patton of Wainwright, for the sum of \$25.00.

On motion of Councillor Coleman, that By-Law No. 385, receive its first reading.

By-Law No. 386 read for the first time.

On motion of Councillor Stafford, that By-Law No. 386, be read for the second time.

By-Law No. 386 read for the second time.

On motion of Councillor Cork, that by unanimous consent, By-Law No. 386, receive third and final reading and that it be assigned its title as in the original motion and that the Mayor and Secretary-Treasurer be authorized and instructed to sign same and affix thereto the Corporate Seal of the Town of Wainwright.

By-Law No. 386 then received its third and final reading.

On motion Council was regularly adjourned.

## Some Thoughts On London's New Blitz

By R. P. MacLean

While the current London blitz is not to be compared with that of 1940, it cannot be lightly laughed off. It is true that only about two hundred planes cross the coast and about half that number reach the city. It is true, too, that the raids are of the "scalded cat" variety with the planes streaking across the city, dropping their bomb loads indiscriminately and heading homewards. This enables the people to obtain almost a full night's sleep. It is true that these raids are not and cannot seriously affect the war effort.

But, nevertheless, the people of London do not like them. It must be remembered that Londoners have been in the real front line of the war for five years now. Five years of blackout is an unpleasant thing and five years of war is bound to tire any people. And the people of London are tired.

They had hoped, too, that the raids were over and now they find that this is not so. As one may express it: "It is like going to a dentist after having been badly hurt the first time. You just do not like it."

The raids have served two useful purposes. First they have made it plain to the people of Britain that the time has not yet come when they can return to their own private and petty disputes. They were beginning to forget this. And the raids have served to show many thousands of Americans a little of what the British people endured while they stood alone in the world with their face to the enemy.

Although the current blitz is light when measured against the tremendous attacks to which Germany is being subjected, it is strong enough to serve as a reminder that Germany is still not devoid of striking power. If anyone optimistic enough to believe that the days of air attack on London were over, they have been disillusioned.

But Londoners have had good evidence in the immense weight and volume of the defensive barrage alone that their defences have not been neglected, but, on the contrary, have been strongly reinforced since the last testing time.

There has been some disposition to treat this attack as having been launched mainly for the purpose of propaganda. This element undoubtedly plays a part in it. That much was shown by the gross exaggeration in the German press and on the German radio and by the talk of "hundreds of bombers" and the pretense that the British Government is making desperate efforts to conceal the truth. The Germans are obviously squeezing from the attacks every drop of propaganda value that can be extracted from them. Yet the new blitz has also another significance. It aims at creating disorganization and strain in London probably as a means of interfering with preparations for invasion of the Continent, though its prospect of achieving this design is extremely slight. On the other hand, the bomb has appeared to be haphazard and based upon no considered plan while imitation of methods and devices employed by the RAF has been rudimentary.

As in other fields Germany has been compelled to call upon sparse and precious reserves in order to resume this form of warfare which she was for so long forced to lay aside. When the reserves appear in a victorious battle it is an evil moment for the adversary. When, however, they are thrown in a futile effort to ward off defeat, that adversary will note their presence with a certain grim satisfaction and accept with clenched teeth such losses as they may inflict upon him. Such is the situation today. It is not to be expected that there will be an immediate cessation of this assault. The losses inflicted upon the raiders in proportion to the forces they have employed has been appreciable, but they have not been great enough to check him if he remains intent upon his design. He is, therefore, likely to go on striking in this manner. He may even, as Prime Minister Churchill has warned, put into operation other methods of aerial attack. But the British people will face him with resolution, and, since this is so, he has not the remotest chance of affecting the course of the war or of modifying his own doom by his present methods. On the contrary, the latest attack on London is a timely summons to the British people in this fifth year of war to play their part in the decisive struggle which still lies ahead. It does not alter the nature of the struggle; it adds little or no weight to the enemy's high-tipped scale.

We know that you wouldn't deliberately throw money out the window—but unless you have carefully investigated the best possible cream returns that can be yours—then perhaps that's exactly what you are doing.

But if you HAVE made a careful investigation, then this message is not for you—because we know you have already realized the advantages that the EDMONTON CITY DAIRY offers.

When you deal with the EDMONTON CITY DAIRY—not only do you get the highest grades possible, but also the highest current prices are granted.

As if this were not sufficient—the EDMONTON CITY DAIRY has streamlined their grading time into quick efficient service, so that not a minute is lost between your cream's arrival, up to the final dispatching of your cheque. Which means, just this—your cream arrives in the morning—your cheque goes out at night!

But we still want you to find all this out for YOURSELF—so send a TRIAL can or instruct your trucker to deliver your cream to the.

## PUBLIC NOTICE

To FRANK DESCOTAUX, and Mrs. FRANK DESCOTAUX, his wife formerly of Chauvin, Alberta.

TAKE NOTICE that the CANADA PERMANENT MORTGAGE CORPORATION through its solicitors, Messrs. Newell, Lindsay, Emery & Ford, Barristers, Edmonton, Alberta, has commenced an action in the Supreme Court of Alberta, Judicial District of Edmonton, against you in regard to an Agreement for Sale dated the 19th day of November, 1925, covering the North East Quarter of Section Thirty (30), Township Forty-two (42), Range One (1), West of the 4th Meridian, in the Province of Alberta, containing 150 acres, more or less, Reserving unto His Majesty all mines and minerals, asking in default of payment, for sale, or cancellation and possession.

AND TAKE NOTICE that you are required to file a Demand of Notice or Statement of Defence in my office at the Court House, Edmonton, on or before the 1st day of October, 1944, and in default of your so doing judgement may be entered against you in your absence without further notice to you.

This Notice is published pursuant to an Order of the Honourable Mr. Justice Tweedie, dated the 27th day of July, 1944.

W. F. H. MASON  
 D. Clerk of the Supreme Court

## SEARLE PRECIPITATION

REPORT No. 13

A decline of approximately 2% has taken place in the total moisture condition of the prairie provinces. The total moisture condition for three provinces together now stands at 95.1% of normal, compared with 97.3% a week ago and 96.5% at this time a year ago.

For Alberta the total condition is now 83.1% of normal, compared with 84.7% a week ago and 88% a year ago. For Saskatchewan the similar total condition is now 97.1% of normal, compared with 99.6% a week ago and 97% a year ago. For Manitoba the similar total moisture condition is now 116.8% of normal, compared with 119.6% last week and 118% a year ago.

It will be observed that a slight decline has taken place in each of the provinces. In Alberta, Crop Districts 1, 2, 3, 4, 5, 6, 15 and 17 have a condition somewhat less than normal, all other Crop Districts being normal or better than normal. In Saskatchewan Crop Districts 4, 5, and 7 are slightly less than normal, all other Crop Districts being normal or better than normal. In Manitoba Crop District No. 13 alone has a condition somewhat less than normal. No. 14 is normal, and all other Crop Districts are definitely better than normal.

Reduced supplies of steel for civilians prohibits use of metal eavestrough or conductor pipe except for repairs and maintenance, WPTB announces.

A popular pioneer story "A Woman of America" boasts a new addition to its cast in the person of radio actor Karl Swanson. Karl plays the part of Nicholas Barclay, an Englishman who came to America to hunt buffaloes and then headed west with the Dane Wagon Caravan. Now only in its second year of broadcasting, "A Woman of America" has become one of the most widely listened to of daytime serial dramas. It's rustic, pioneer element coupled with generous helpings of suspense, romance and pathos comprise a story that's "history" with a true-to-life flavor. "A Woman of America" is heard each weekday, Monday thru Friday at 1.00 p.m. over the trans-Canada network and CJCA.

### Farm Notes

#### DEMAND FROM U.S. FOR ALBERTA POULTRY

Poultry producers in Alberta will be called upon to ship 250,000 pounds of fowl, three pounds or better dressed, to the United States Government for army use, Frank J. Heffernan, President of the Alberta Poultry Federation announced today. The order has been placed through the Special Products Board at Ottawa. Only fowl that will dress out to grades A or B are acceptable to the order.

In order to take advantage of this situation, farmers should cull their old hens immediately, Mr. Heffernan declared. All birds that are well fleshed and fattened and have a straight breast bone and weighing not less than four pounds live weight should be shipped to the nearest poultry receiving station without delay.

This order is open only until August 5 and farmers wishing to take advantage of it must get their fowl into the receiving centres by that date, Mr. Heffernan stated. He added that future orders are very indefinite and will depend largely upon the success of filling the present order which has to be shipped in time to make export sea board connections on stipulated dates.

"This is a golden opportunity to get out of the province 250,000 pounds of fowl which might not otherwise reach the export market. It will reduce the possibility of congestion on the market in the future," Mr. Heffernan declared. "It is estimated that Alberta will have a marketable surplus of 10,000,000 pounds of all kinds of poultry in 1944. In order to handle this tremendous volume of poultry, the producers will have to assume the proper selection and finishing of poultry on the farms because the dealers have not sufficient facilities for finishing all these birds. Valuable storage space is already occupied with large quantities of unsaleable low-grade poultry from last year and there is no market any kind. I therefore, urge producers to co-operate in filling this immediate order and to make well founded plans to finish their poultry on the farms this season," Mr. Heffernan concluded.

### World of Wheat

Searle Grain Company, Ltd.

#### A FEARED SHORTAGE OF COAL

All those who have to do with coal in Canada, including the Government Coal Controllers, have warned us that there will probably be a shortage of coal this coming winter.

If it is uncomfortable to live in a cold home in the city, it is still more uncomfortable to live in a cold home on these bleak prairies. We are told, however, that coal users themselves can help to alleviate the coal situation by taking delivery of a good deal of their winter supply of coal this summer, preferably now.

Elevator Companies maintain coal sheds at most country points. If farmers take delivery of their coal now, these coal sheds would soon be emptied and new supplies can be rushed in to fill them. This would empty the storage places on the mines, and the operators, there fore, could proceed with more coal digging this summer while labour is available, and when the railroads can make easier, quicker and more certain deliveries than they can during the cold freezing winter months, I venture to suggest, therefore, to all farmers, that those who will need coal this coming winter should strain every effort to haul as much of their requirements as possible now during these summer months.

#### ITEMS OF INTEREST IN THE WORLD OF FOODSTUFFS

Canadian domestic requirements of wheat for the crop year 1943-44 are now estimated at 191 million bushels, an increase of 16 million bushels over the previous estimate. Some improvements in the wheat crop is reported from Spain, but the harvest will be below home requirements.

New Zealand has set the 1944-45 objective for wheat acreage at 300,000 acres, compared with 249,000 acres in 1943-44. The Russians are reported to have seeded considerable acreage to grain in the Crimea since the Nazis were expelled. The U.S.A. feed supply situation in the 1944-45 feeding year is expected to be more favourable with respect to livestock requirements than in 1943-44.

## CANADIAN + RED CROSS

*GIVE - human suffering is greater than ever*

Windsor Station (upper) headquarters of the Canadian Pacific Railway, with its wide (long) travel system.

Day by day, travellers by the train and children of Montreal watch the progress of the war on huge wall maps in the Concourse of Windsor Station (upper right).

A few of the 2,500 employees of the C.P.R. whose offices are contained in Windsor Station are shown (lower).

HISTORIC Windsor station in Montreal, nerve centre of the vast Canadian Pacific Railway system, is much more these wartime days than merely a place to get on or get off trains. Under the impetus of war and in keeping with C.P.R. traditions of service, many new features for the use of the general public have been added.

Not the least can be viewed in the flag-decked Concourse, where four huge wall maps have been installed depicting the Pacific Theatre, the Italian Front, the fighting in France and the Russian Front. Each day brightly colored thumbtacks are re-arranged to show the very latest gains as announced by the army headquarters in each theatre of war. Not only the travelling public, but many hundreds of Montrealers take advantage of this service by means of which they can secure a vivid, up-to-the-minute picture of all the world's battlefronts. The Concourse itself is decorated with all the flags of the United Nations, each one named.

Over 2,500 officers and employees of the C.P.R. are stationed in Windsor Station, which first opened its doors in 1889. Each day between six and eight thousand telephone calls are made over the company's switchboard there, as well as many long distance business calls over the company's own wires which stretch from Halifax to Vancouver.

Kings and queens, lords and ladies, diplomats, dowagers, immigrants seeking a new life of freedom, young servicemen starting for the far corners of the earth—all these have passed through Windsor Station's lofty portals not only during this war, but in the days of other wars and the years of peace between. Windsor Station is a worthy monument to the world's greatest travel system and the country it so faithfully serves.

PRICE CEILING

The old family budget is acting up quite a bit these days, and no wonder. Nearly everything you buy has hit the ceiling. But there is one thing you can still obtain at the old pre-war price—electricity. And you still get the same dependable pre-war service.

Like your own living costs our operating costs have increased tremendously, too. Materials and machinery are harder to get and cost more. Payrolls and taxes, and all the expenses of making electrical service available at your touch of a switch cost more today.

It's the careful planning of past years—the policy of building for the future, for emergency conditions—plus efficient business management that enables us to continue the same high quality of electric service at pre-war rates.

## Hints for the Household

Here are two recipes for those who are interested in joining that group of women who are sincerely anxious to conserve foods - particularly when those saved portions may be turned into delicious, healthful, surprise desserts with little expense or effort:

**Chocolate Crumb Rennet Custard**  
1 package chocolate rennet powder  
2 cups milk (not canned)  
1 egg yolk, beaten  
2 pieces stale chocolate cake  
(3 x 2 1/2 x 2)

Break cake into 6 or 8 individual dessert dishes. Combine egg yolk and milk and warm slowly, stirring constantly. Test a drop on inside of wrist frequently. When COMFORTABLY WARM (110°F.) not hot, remove at once from heat. Stir rennet powder into milk briskly until dissolved - not over one minute. Pour at once, while still liquid, over rice mixture in the dessert glasses. Do not move until firm - about 10 minutes. Chill.

Note: Left-over rice pudding may be used in place of the rice mixture

hot, remove at once from heat. Stir rennet powder into milk briskly until dissolved - not over one minute. Pour at once, while still liquid, over rice mixture in the dessert glasses. Do not move until firm - about 10 minutes. Chill.

Note: Left-over rice pudding may be used in place of the rice mixture

### Cereal Pie Shell

2 tablespoons melted butter or other shortening  
1/2 cup finely crushed Post Toasties  
1 tablespoon sugar  
1 tablespoon water

Add butter to cereal, tossing lightly to mix. Dissolve sugar in water and sprinkle over cereal mixture, tossing lightly again. Press into bottom and sides of 8 or 9-inch pie plate. Bake in moderate oven (375°F.) 8 to 10 minutes.

### Fresh Peach Pie Glaze

8 fresh peaches, sliced (4 cups)  
1/2 cup sugar  
1 package orange-flavored gelatin  
1 1/2 cups hot water  
Dash of salt  
1 Post Toasties pie shell

Combine peaches and sugar and let stand 10 minutes. Dissolve gelatin in hot water. Add salt and pour over peaches. Chill. When slightly thickened, turn into cold pie shell. Chill until firm.

### Vanilla Ice Cream

2 teaspoons gelatin  
1/2 cup cold milk  
1/2 cup hot milk  
1/2 cup sugar  
Dash of salt

2 cups light cream  
1 teaspoon vanilla  
1/2 cup Grape-Nuts

Place gelatin in bowl; add cold milk and mix well. Add hot milk and stir until gelatin is dissolved. Dissolve sugar and salt in hot mixture. Add cream and vanilla. Turn into freezing tray of automatic refrigerator, setting control for coldest freezing temperature. When partially frozen, remove from tray and beat with rotary beater until fluffy and smooth. Fold in cereal. Return to tray and freeze 30 minutes longer; stir. Then freeze until firm. Freezing time: 3 to 4 hours. Makes 1 quart.

Fresh fish require no points. Neither do milk, onion, lemon juice or eggs. So a fish recipe can be pleasing to our ration book; it gives us a new way to serve our no-point fish, and bolsters the no-point, low-point program with a nutritious tasty.

The fish dish that has been chosen as this month's "Star" recipe is unique - it's baked in individual molds, attractive enough for company dinners. Try the recipe below and decide for yourself whether or not we have chosen wisely.

### Baked Fish Molds

3 cups Post Toasties, finely crushed  
1 1/2 cups milk  
2 tablespoons mayonnaise  
2 tablespoons chopped parsley  
1 1/2 tablespoons chopped chives or minced onion  
2 tablespoons lemon juice  
1/2 teaspoon thyme  
1 1/2 teaspoons salt  
Dash of pepper  
2 cups cooked fish, flaked and chopped  
2 eggs, well beaten

Combine Post Toasties and milk; let stand 10 minutes. Add mayonnaise, parsley, chives, lemon juice, and seasonings and mix thoroughly. Then add fish and eggs and mix well. Turn into well greased molds

or custard cups. Bake in moderate oven (375°F.) 35 to 45 minutes, depending upon size of molds. Serve with mustard sauce, made by adding 1 tablespoon prepared mustard to 2 cups white sauce. Makes 6 to 8 servings.

Use some of those surplus eggs now so plentiful and have a treat for yourself and your family—a real Lemon Meringue Pie. Shortening doesn't take points now, so pie crust presents no problem.

### Lemon Meringue Pie

Bring to a boil in a saucepan on direct heat: 1 cup water, 1/2 cup sugar, 1/2 teaspoon salt and 1 teaspoon grated lemon peel. Add 5 tablespoons cornstarch, blended with 1/2 cup water. Cook over low heat until thickened (about 5 minutes), stirring constantly. Remove from heat. Pour part of hot mixture slowly into 3 well beaten egg yolks. Return it to rest of hot mixture. Stir well. Add 1 tablespoon butter and stir. Add 6 tablespoons fresh lemon juice. Mix well. Pour filling into an 8-inch baked pastry shell. When filling is cool, top with a meringue, made by beating 6 tablespoons sugar gradually into 3 beaten egg whites until they hold their shape in peaks. Put in moderate oven at 325°F. for 15 to 20 minutes, to brown tips of meringue

## HEALTHY

A HEALTH SERVICE OF THE CANADIAN MEDICAL ASSOCIATION AND LIFE INSURANCE COMPANIES IN CANADA

National Health Department  
Planned by King Government

TORONTO—Announcement by Prime Minister King that public health administration is to be under a department of health and

social welfare instead of one of social welfare as recently proposed has been greeted with satisfaction by public-health officials and the medical profession generally.

Emphatic opposition to the earlier proposal was registered by the Canadian Medical Association, the Health League of Canada, the Canadian Public Health Association, and by representative public-health men.

Reorganization was made necessary at Ottawa by the Government's decision to make pensions a responsibility of a new department of veterans' affairs.

Since 1928 both pensions and health have been handled by one department, with two branches. The original Department of National Health was founded in 1919 after 40 years of effort by leading public men, and its institution at that time was due in a large measure to the serious venereal-disease situation at the close of war.

In 1928, when the Department of Soldiers' Civil Re-establishment was abolished, veterans' affairs were transferred to the health department, known thenceforth as the Department of Pensions and National Health.

It was the hope of the founders of the original department of health that it would grow with the years and that every effort would be made to increase its scope and influence. There were times, especially in 1932 (when the federal venereal-disease grants were abolished) when it appeared that the department would disintegrate. However, with the advent of the Heagerty report on health insurance, it was conceived that the department was entering on a new era of usefulness to the nation.

Public-health men feared that the progress of 25 years would be undone, and they expressed alarm be placed under a department of social welfare instead of being given a place of its own in national affairs.

**It Doesn't Leave a Lot for the Civilian**

WHEN war demands have been filled... when invasion gasoline, aviation gasoline, Navy fuel oil, petroleum for the manufacture of explosives, synthetic rubber, and gasoline for war industry, farming and essential trucking all have been taken from Canada's oil supply — it doesn't leave a lot for the civilian!

Figure it out for yourself. It takes 5,250,000 gallons of gasoline to fuel 5,000 bombers and fighters for a mission over Germany. It takes enough oil for one fueling of a battleship to heat an average house for 350 years. It takes 18,000 gallons of gasoline to keep one armoured division on the move for one hour.

From petroleum and petroleum gases we obtain the gasoline and fuels needed to power planes and ships and tanks as well as the raw material for acetone, ammonia and toluol for explosives, organic chemicals for anaesthetics, naphthas for camouflage paints and plastics and resins for war weapons production.

This is why civilian gasoline is short. This is why it's up to every motorist, to every owner of an oil-heated home,

to exercise the strictest economy in gasoline or fuel oil usage. Every gallon we can do without here at home is one gallon more for the fighting men. And they need every gallon they can get.

Two full years of gasoline rationing and fuel oil control in Canada have saved 393,000,000 gallons of gasoline and 175 million gallons of fuel oil — a total saving of 568,000,000 gallons of petroleum products. Yet, despite this saving, gasoline stocks on hand in Canada, as of March 31st, this year, were 55,000,000 gallons less than at the commencement of rationing, April 1, 1942.

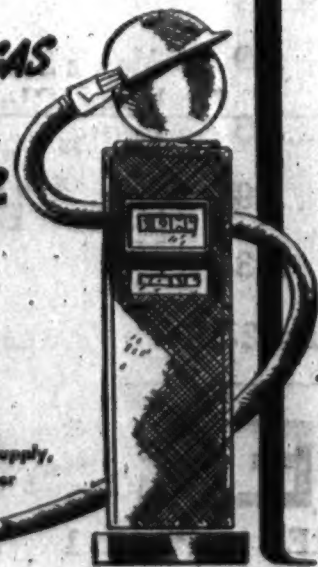

Oil has a mighty war job to do — yet supplies are short and are constantly dwindling. Oil powers the attack on every front. Oil can mean the difference between success or failure, between light casualty lists and heavy. Oil is vital ammunition — not to be wasted, not to be needlessly, frivolously spent.

**Answering Your  
Questions about the  
Gasoline Shortage**

What are Canada's total yearly requirements of motor gasoline? ... Approximately 800,000,000 gallons. Do these requirements have to cover both military and civilian needs? ... Yes. Why cannot this supply be increased? ... Because total hemispheric supplies are inadequate to meet both the colossal war demand and civilian needs. There is not enough oil, there are not enough tankers, for both. How much of Canada's petroleum needs is supplied from Canadian wells? ... Only 15%. Why can't this home production be increased? ... Every effort is being made to do so. More new wells are being drilled or prepared for drilling, than at any time in the history of Western Canada, but we have yet to find a new Turner Valley. War does not wait for new production.

## NEWS &amp; VIEWS OF TOWN AND DISTRICT

\*\*\*Notice to farmers: The Co-Op Market service recommends that all fat cattle that are ready should be marketed now and gradually each week to ease the situation at the plants this fall; better values will be realized than when the capacity of plants will again be taxed. The Co-Op will ship hogs Thursday, as well as Friday each week. Phone 903 for cattle and sheep loading dates.

BORN—To Mr. and Mrs. T. C. Burkholder, at the Royal Alex hospital in Edmonton on August 3rd, a boy.

CORRECTION.—Due to a typographical error last week, the stove belonging to Mrs. K. Blakely appeared to be selling for \$160.00. This was wrong; the correct price is \$80.00.

Mrs. P. W. Wood and son Ralph, of Firdale, Man., arrived in town on Monday to spend a holiday with her sister Miss Jane Wood and others here.

Lt. Cpl. Marshall Jackson was home on leave from army duties in Calgary visiting his mother and sister in town.

Possibly the first English war bride to arrive in Wainwright came on August 4th, this is Mrs. H. J. Sewell who has now taken up residence with her husband following his discharge from the services.

Mr. Clarence Rowe is leaving this week to make his home in Elkhart, Indiana.

Cpl. Harold Bruner is enjoying a furlough from his army duties at Red Deer.

Miss E. Sheridan, of the Treasury Branch, is enjoying her annual vacation these days.

Mr. and Mrs. Alf Lilly have recently received word that their son P/O Bob Lilly has been promoted to flying officer.

Truly a great improvement has now been made in the appearance of the Hostess House by the stuccoing of the whole premises. The boys are to be congratulated on this.

## FIFTEEN MILLION MEALS

SERVED ON DINING CARS

Montreal—Nearly fifteen million meals have been served on Canadian National Railways dining cars since the beginning of the war. During that period, each succeeding year has witnessed an increase in the number. With 2,277,839 served during the first six months of 1944, a daily average of 12,516, the present year bids fair to surpass all previous records, according to W. W. Swinden, general superintendent, sleeping and dining car department. More than half the meals have been for men and women in Canada's armed forces.

## RAIL OFFICIAL RETIRES

Montreal—Completing service that extended over half a century, Cecil W. Johnston, general passenger traffic manager of the Canadian National Railways, has retired under the pension rules of the company, according to an announcement by Alistair Fraser, vice president. Mr. Johnston, one of the best known traffic men on the continent, has seen railway service in three wars - the Boer War, World War I and II. For some years he was stationed in Winnipeg as chief clerk in the passenger traffic office of the Grand Trunk Pacific, now part of the Canadian National System.

Even a mistake can be useful - if we are honest about it.

Dominant power after the war may rest, not with dominance of arms, but with a dominant idea.
